

## INFORMATION SHEET

# DR MANUSteril

## Hygienel HS1

### ALCOHOL DISINFECTANT

- Doesn't require rinsing
- Does not damage skin on hands
- Does not require colourants and fragrances
- Marketing authorisation for a bactericidal product number: 7802/19

### USE

Liquid product based on alcohol for hygienic disinfection of hands and surfaces which both are and are not in contact with food, in plants representing the agri-food industry, and in mass catering facilities.

The product is designed for disinfection of the surface of materials, equipment and furniture resistant to the effect of alcohols in public and industrial buildings.

### METHOD OF USE

#### HAND DISINFECTION

Take approx. 2 ml of the product, rub it into hands for about 30 seconds; repeat this activity twice.

Allow hands to dry. Do not wipe hands. Do not rinse with water.

#### SURFACE DISINFECTION

Spray surfaces, leave for about 1 minute.

### MICROBIOLOGICAL SPECTRUM

Hygienic hand disinfection, according to EN 1500:2002

Bactericidal and fungicidal action on surfaces, according to EN-13697:2002

BACTERICIDAL ACTIVITY		FUNGICIDAL ACTIVITY	
Pseudomonas aeruginosa	60%	Candida albicans	40%
Staphylococcus aureus	40%	Aspergillus niger	80%
Escherichia coli	40%		
Enterococcus hirae	80%		
As per the EN 13697:2002 standard (at protein burden 0.03%, in 5 min., temp. 20°C).		As per the EN 13697:2002 standard (at protein burden 0.03%, in 15 min., min. temp. 20°C).	

### IMPORTANT INGREDIENTS

Contains: vitamin F, glycerine <5%,  
active substance: Propane-2-ol - 40g/100g, Ethanol - 40 g/100g, Propane 1-ol - 2g/100g.

### PHYSICAL AND CHEMICAL PROPERTIES

Density at 20°C, g/cm <sup>3</sup> :	0,87 ± 0.5
Product pH (10g/l):	5.5 ± 0.5
Foamability:	Low
Date:	36 months
Freezing temperature:	< 40°C

### STORAGE

Store away from low temperatures and direct sources of sunlight, at the temperature between 5 and 35°C. Containers must be provided with original closures and labels. Protect the containers with the product against being accessed by unauthorised persons.

### BIODEGRADABILITY

The surfactants contained in this product comply with the biodegradability criteria as laid down in Regulation (EC) 648/2004 on detergents.
